A decrease of state revenue could occur if a significant number of current satellite subscribers shift to video programming services offered by new market entrants utilizing new delivery technology. This decrease could occur because the effective tax rates levied on services delivered by the new technology will be less than the rates levied on services delivered by satellite providers. Such revenue impacts are considered offsetting and are dependent upon multiple unknown factors. The cumulative net impact to state revenue cannot reasonably be quantified.
933 3184*-3098	Requires each state agency granted a special delegated authority to establish fee-for-service contracts to report quarterly to the Fiscal Review Committee a listing of all contracts awarded under such delegated authority.		Not Significant
